PROFESSIONAL SUMMARY

Cloud Engineer with hands-on experience in designing, deploying, and managing AWS cloud infrastructure through practical projects and national training programs. Skilled in AWS, Terraform, Windows Server Administration, Linux, Networking, and FortiGate Firewall. Passionate about building secure, scalable, and reliable cloud solutions while continuously expanding technical expertise.

TECHNICAL SKILLS

- Cloud Computing: AWS, Amazon EC2, Amazon VPC, IAM, Amazon S3, Amazon EBS, Elastic Load Balancer (ELB), Amazon CloudWatch
- Infrastructure as Code: Terraform
- Operating Systems: Linux, Windows Server
- Networking: TCP/IP, Routing & Switching, Subnetting, Cisco Packet Tracer, Network Troubleshooting
- Security: FortiGate Firewall, Security Groups, IAM, NAT, VPN, Wireshark
- Programming: Python, Java, HTML, CSS
- Database: SQL Server
- Version Control: Git, GitHub
- Soft Skills: Communication, Teamwork, Leadership, Problem Solving, Analytical Thinking, Time Management

PROJECTS

AWS Infrastructure Deployment

- Designed and deployed AWS infrastructure using Amazon VPC, EC2, IAM, Amazon S3, Amazon EBS, Elastic Load Balancer (ELB), and Amazon CloudWatch.
- Configured Public & Private Subnets, Route Tables, Internet Gateway, and Security Groups.
- Automated infrastructure deployment using Terraform following Infrastructure as Code (IaC) principles.

AWS Dynamic Web Application

- Deployed a dynamic web application on Amazon EC2.
- Configured networking, IAM, storage, and Elastic Load Balancer.
- Monitored infrastructure using Amazon CloudWatch.

AWS Static Website Hosting

- Hosted a static website using Amazon S3 Static Website Hosting.
- Configured bucket policies and public access.
- Managed cloud storage and website deployment.

Windows Server Administration

- Installed and configured Windows Server.
- Configured Active Directory Domain Services (AD DS), DNS, DHCP, Group Policy, and User Management.

- Managed Windows network services.

FortiGate Firewall Configuration

- Configured firewall policies, NAT, VPN, and traffic filtering.
- Applied network security best practices.
- Implemented secure network access and monitoring.

TRAINING & EXPERIENCE

Cloud Architect Summer Training — National Telecommunication Institute (NTI) & ITIDA | 2026

- Completed a 120-hour hands-on Cloud Architect Summer Training.
- Designed secure and scalable AWS cloud infrastructure.
- Applied AWS architecture best practices through practical labs.

AWS Cloud Security Trainee — Digital Egypt Pioneers Initiative (DEPI) | Present

- Studying AWS cloud security concepts and best practices.
- Learning IAM, network security, monitoring, and logging.

Cloud Essentials Trainee — NTI & ITIDA National Program

- Gained hands-on experience with AWS services including EC2, VPC, IAM, S3, EBS, ELB, and CloudWatch.
- Built and managed AWS cloud infrastructure.
- Provisioned infrastructure using Terraform.

Cybersecurity Academy Trainee — National Telecom Regulatory Authority (NTRA)

- Completed practical cybersecurity training.
- Performed packet analysis using Wireshark.
- Studied network defense and security monitoring.

PHP Web Development Intern — Information Technology Institute (ITI)

- Developed PHP web applications.
- Built SQL database projects.
- Integrated backend functionality with databases.

EDUCATION

Faculty of Computers and Artificial Intelligence, Cybersecurity Track
Beni-Suef National University | Expected Graduation: 2027

CERTIFICATIONS

- Cloud Architect Summer Training Certificate – NTI & ITIDA (120 Hours)
- Huawei HCCDA Tech Essentials
- AWS Introduction to Cloud Computing – Manara
- Cloud Essentials Program – NTI & ITIDA
- Cybersecurity Certification – NTRA & NTI
- Linux Essentials – MaharaTech
